

BULGARIA

FEELS THAT SHE HAS BEEN
BUNCOED BY

SULTAN AND ADVISORS

Danger of War is Only
Postponed.

Sofia, May 1.—Despite the fact that the Turkish-Bulgarian agreement has been drafted into a treaty and subscribed to by both powers, there is a growing feeling here that Bulgaria has been deceived by the sultan and his advisors and that instead of the danger of war in the Balkans having been averted for good and all the conflict has simply been postponed for a time. As an indication that this feeling is shared by the higher Bulgarian officials the following facts may be cited. It in the past has been customary to grant freely leaves of absence to the officers of the army during the spring and early summer months and a large number of applications are now pending. However, within a short time several general orders have been issued by the minister of war the effect of which has been to do away with all leaves for the present while all officers have been ordered to bring their commands up to the highest degree of efficiency. This is held by well informed Bulgarians to mean that Bulgaria may yet have to battle to retain her independence.

In conversation with an officer of the Bulgarian general staff whose identity for obvious reasons cannot be revealed, the Publishers' Press correspondent was assured that it is generally recognized that war cannot be averted although postponed for a time by the new treaty.

"There are," said the officer, "many points at issue between the two nations which must continue to cause friction. Both sides recognize this and know that the recently drafted treaty is a delusion and a snare and intended simply as a stop-gap. Turkey is purchasing large quantities of ammunition in Germany and England and is getting her navy in readiness for instant service. Turkish troops are being moved to the frontier under cover of the darkness and every post is at present housing a double complement of men. Bulgaria on the other hand cannot, even should she desire to do so, stop the insurgent bands assembling in her territory and passing from there into Turkey to strike at the Bash-Bazouks and even at the Turkish regulars. The frontier lines are long and the entire strength of the Bulgarian army could hardly properly patrol it. Even should the guard line be established the insurgents can easily avoid the soldiers by crossing into Turkish territory one by one and assembling at a given rendezvous."

The Bulgarian newspapers are a unit in declaring that the treaty is weak and that one or the other nation may be depended on to repudiate it before the summer is over.

WAS MURDERED

Is Page's Opinion of His
Sister's Death.

New York, May 1.—J. Frank Page of Oberlin, Pa., who arrived here tonight, said that he believed his sister, Mrs. S. J. Keim, whose dead body was found in the Hotel Vendome, was murdered and did not commit suicide. He stated it as his belief that the note which was found in the room was a forgery. He said his sister was in good health and did not lack for plenty of money if she needed it, having an ample income from the estate of her late husband, who was a member of the wholesale grocery firm of Jarrell & Keim, of Philadelphia. He said he would ask for a thorough investigation of the affair and especially desires to see the letter which was supposed to have been written by Mrs. Keim, in which it was stated that her reason for taking her own life was that she was in financial straits.

Mr. Page is connected with the Pennsylvania Steel Co.

Close of School. (Contributed.)

The Hillsdale school of Pike township, district No. 5, closed Saturday, April 23, with a picnic dinner which was prepared by the ladies of the district, and consisted of all the delicacies that anyone could wish. A good feeling existed between the teacher and his pupils. James W. Kinney is given much praise for teaching two successful terms of school. He is an up-to-date young man and his friends wish him all the success that this present life can afford.

Those present out of the district were Rev. Heron and wife, Miss Chloe Stands, Oily Weaver, Hazel Amend, Mable Smith, Florence Whitmer, Mrs. Dine of Sparta; Mrs. Smith and children of Canton. An artist from Canton took pictures of the pupils. There were many others who enjoyed the day with the teachers, pupils and their parents. The afternoon was passed in listening to talks from the parents and an address and presentation speech by Rev. Heron, the pupils asking him to present to their teacher a gift. A literary program in the evening consisted of recitations, vocal and instrumental music. The orchestra of Sparta, consisting of Mr. and Mrs. Little, Ben Smith, Bud Rice and Lester Young gave several selections. John Studer of Oberlin, sang and played several selections on the guitar.

It was a day and evening much enjoyed by all that had the pleasure of being present.

NO DANGER

OF INTERFERENCE WITH
JAPAN'S PLANS

BY RUSSIAN WARSHIPS

Wireless Telegraphy Not
Doing Business.

Nagasaki, May 1.—(London Times)—To all intents and purposes, the Port Arthur action of April 13th has destroyed all reasonable fear of interference with Japan's plans in the Yellow Sea by the Russian Pacific squadron. The successful beginning of operations is now reported along the Yalu river.

As pointed out in my previous messages, General Kuroki's army may not be expected to cross the Yalu until the Japanese are prepared to strike heavily all along their selected front.

Military authorities consider that at the present juncture it would be a tactical mistake to allow any external means of communication to remain in touch with their troops and this is the reason for my remaining here.

From the attitude of the inhabitants here it is almost impossible to realize that the country is engaged in a national struggle and the calm which prevails is most remarkable.

The above dispatch is from Captain Lionel James, the London Times-Publishers Press correspondent on board the steamer Haimun which put into Nagasaki on Wednesday last to refit. This probably means that the Japanese government has requested further disuse of the wireless telegraphy apparatus on the Haimun for the present.

CANTON CAR WORKS

SOLD FOR \$36,101 BY TRUSTEE
JOHNSON

BOUGHT BY CREDITORS

Canton Bridge Company
Gets the Buildings.

The Structural Steel car works, which have been in the hands of Trustee U. S. Johnson for many months, were sold at trustee's sale Saturday, being purchased by the Canton Bridge company for \$29,250. The Bridge company secured the buildings, land and permanent machinery and the Cleveland Punch and Shear company purchased the movable machinery for \$6,851, making the total \$36,101. Both the purchasers were heavy creditors and they bought to save themselves from loss. The secretary of the Bridge company, Mr. W. C. Laiblin, stated that the plant would be sold if it could be disposed of to an advantage, as the company did not care to utilize it. The bridge company furnished the structural iron for the buildings.

There were quite a number of bidders present, principally creditors, however. When the money is collected from the sale an effort will be made to close up the affairs of the company. The failure of the car works to get into operation was a great disappointment to the citizens of Canton, and especially those living in the south-west section of the city. The buildings are excellent and it is thought that some line of manufacturing may be carried on in them later. The property includes several dwelling houses.
